Author, *The Coming Technological Singularity*

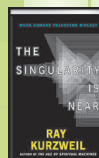

Thomas Malone
Professor, MIT Sloan School of Management
Author, *The Future of Work*

Daniel Amen, MD
CEO, Amen Clinics; SPECT Pioneer; Author, *Change Your Brain, Change Your Life*

Artificial intelligence (AI), broadly defined, improves the intelligence and autonomy of our technology. Intelligence amplification (IA) empowers human beings and their social, political, and economic environments.

Our conference exists to network and inform the most broad minded, future-aware, practical and passionate change agents, both presenters and participants. Join us as we consider these twin trends from global, national, business, social, and personal foresight perspectives.
